Additional Information for Sponsors / Salesperson / Merchant

- Smart Cookie Coupons: These are generated by users using reward points and are redeemed at the sponsor's end. The sponsor decides the discount based on the points.

- Sponsor Coupons: Defined by the sponsor for their store and users have to buy these coupons using reward points. These coupons are redeemed only at that sponsor.

- Coupon Redemption:

  o When a user (teacher/student) comes with a Smart Cookie coupon, the sponsor will scan the bar/QR code. The entire user information will appear for verification. The user can then get a discount or buy a product from the vendor.

- When a user comes with a sponsor coupon, the sponsor will either enter or scan the coupon code to accept the coupon. The user can then avail the service at the vendor.

- Leaderboard: Displays the top 10 students by school/college, duration, subjects, and activity name.

- Logs: Maintains a log of accepted sponsor and Smart Cookie coupons. There is also a log of college-wise sponsor coupons.

- Sponsor Setup: Sponsors can set up discounts and products, and also create sponsor coupons.

- Sponsor Map: Registered sponsors and those suggested by Smart Cookie users are seen on the map.

- Profile Editing: Sponsors can edit their created profile.

ANOTHER WAY: How Salesperson/Salesmanager add/register sponsors in smartcookie?

1. The Salesperson/Salesmanager identifies potential sponsors who might benefit from partnering with SmartCookie.
2. The Salesperson/Salesmanager presents the Smart Cookie platform to the potential sponsors, highlighting how their products, discounts, and coupons can be beneficial to the students and teachers. They provide detailed proposals, including the terms of partnership and the process of offering products and discounts through the Smart Cookie platform.
3. Once the sponsor agrees to partner with SmartCookie, the Salesperson/Salesmanager assists in finalizing the partnership agreement. They ensure that all necessary documentation is completed and signed by both parties.
4. The Salesperson/Salesmanager helps the sponsor with the registration process on the Smart Cookie platform.
5. After registration, the Salesperson/Salesmanager continues to offer support to the sponsor. They address any issues or questions the sponsor may have and assist in optimizing their offerings on the Smart Cookie platform.

How to Register as a Teacher in SmartCookie?
How can I join SmartCookie as a Teacher?
How do I sign up as a Teacher on SmartCookie?
How can I enroll as a Teacher on SmartCookie?

It's important to note that teachers cannot register themselves; the school admin must complete the registration process for them.
Steps to Register Teachers:

Bulk Addition of Teachers:

1. The school admin prepares a file containing multiple teacher records. This file should include all necessary details such as names, email addresses, contact numbers, and other relevant information.
2. The admin logs into the Smart Cookie platform and navigates to the upload panel specifically designed for bulk teacher registrations.
3. The admin uploads the prepared file. The system will process the file and extract the teacher records.
4. The admin reviews the extracted records to ensure accuracy. Once verified, the admin confirms the upload, and the system registers all the teachers in the file.

Individual Addition of Teachers:

1. The admin logs into the Smart Cookie platform and navigates to the "Master" section.
2. Within the "Master" section, the admin selects the "Teachers" option
3. The admin clicks on the "Add Teachers" option to open the registration form.
4. The admin fills in the required details for the teacher, such as name, email address, contact number, and any other necessary information.
5. After filling in the details, the admin submits the form. The system processes the information and registers the teacher.

If you face any issues during registration, feel free to contact our help team:

- Helpline: +91-7219193815

- Email for Help: help@smartcookie.in

Additional Information for Teachers

- Dashboard: Shows balance of green points, blue points, brown points, and water points. Clicking on any color points provides a log of that specific point.

- Subjects Taught: List of subjects along with branch, semester, and class displayed on both web and app. Clicking on a subject shows the list of students.

- Student Information: Displays student names, PRNs, division, branch, and green points.

- Reward Assignments: Teachers can assign rewards to students by clicking on the assign button, selecting the reason and method. Assigned rewards are added to the student's profile and displayed on the student app via Google Cloud Messenger.

- Logs: Maintains logs of rewards given to students, shared points (shared with other teachers), and thanQ points (given by students and school admin).

- Coupons: Teachers can generate coupons using their thanQ points (blue points) and buy sponsor coupons with these points. Teachers can also share their coupon redemption on Twitter or Facebook.

- Coupon Logs: Maintains logs of used and unused coupons for both SmartCookie and sponsor coupons, along with "My Cart".

- Student Coordinator: Teachers can appoint a student coordinator who represents the students.

How to Register as a Parents (Mother/Father/Guardian) in SmartCookie?

How can I join SmartCookie as a Parents (Mother/Father/Guardian)?
How do I sign up as a Parents (Mother/Father/Guardian) on SmartCookie?
How can I enroll as a Parents (Mother/Father/Guardian) on SmartCookie?

Parents (Mother, Father) cannot register themselves. The school admin is responsible for completing the registration process on their behalf.

Steps to Register Parents:

Bulk Addition of Parents:

1. The school admin prepares a file containing multiple parent records. This file should include all necessary details such as parent names, email addresses, contact numbers, associated student details, and other relevant information.

2. The admin logs into the SmartCookie platform and navigates to the upload panel specifically designed for bulk parent registrations.

3. The admin uploads the prepared file. The system processes the file and extracts the parent records.

4. The admin reviews the extracted records to ensure accuracy. Once verified, the admin confirms the upload, and the system registers all the parents in the file.

Individual Addition of Parents:

1. The admin logs into the SmartCookie platform and navigates to the "Master" section.

2. Within the "Master" section, the admin selects the "Parents" option.

3. The admin clicks on the "Add Parents" option to open the registration form.

4. The admin fills in the required details for the parent, such as name, email address, contact number, associated student details, and any other necessary information.

5. After filling in the details, the admin submits the form. The system processes the information and registers the parent.

If you face any issues during registration, feel free to contact our help team:

- Helpline: +91-7219193815

- Email for Help: help@smartcookie.in

Additional Information for Parents:

Parents in the Smart Cookie platform initially receive points from the School Admin to distribute to their children and their children's teachers. They can also purchase gift cards as water points, which can be converted into blue points to thank teachers and purple points to reward their children. Additionally, parents have the ability to manage their family information by adding or deleting children in the system. All assigned blue and purple points are logged, ensuring transparency and tracking of point distribution by parents.
